

Relè molto versatile
e con prestazioni elevate
nonostante le dimensioni ridotte.

*Very versatile relay
with high switching capability
nevertheless reduced overall dimensions.*

**Relè tutto o niente
monostabile**

**All or nothing
monostable relay**

linea C e D - line C and D

Funzionamento:

- in corrente continua
- in corrente alternata (direttamente senza raddrizzatori o diodi)

Isolamento:

a frequenza industriale e ad impulso (vds. tabella al retro)

Contatti:

2 o 4 di scambio da 10 A nominali

Servizio:

- continuo
- durata meccanica: 20x10⁶ manovre

Esecuzione:

protetta con calotta trasparente (grado di protezione IP.40 - EN 60529) ed impugnatura per estrazione

Resistenza al fuoco:

secondo EN 60695-2-1

Raccordi:

ad innesto faston

Ambiente:

temperatura di impiego -25°C +55°C
temperatura di magazz. e trasp. -25°C +70°C

Segnalazione:

ottico-meccanica a colore rosso di posizione attivata oppure LED

Interdizione:

a richiesta con spine

Portacartellino:

guida per cartellino: 8 x 15 x 0,5 mm (RCME)
8 x 30 x 0,5 mm (RDME)

Resistenza alle vibrazioni:

1 g da 10 a 50 Hz

Resistenza allo shock:

3 g

Massa:

gr. 60 (circa) (linea C)
gr. 115 (circa) (linea D)

Volume:

cm³ 40 (circa) (linea C)
cm³ 80 (circa) (linea D)

Normativa di riferimento:

EN 60255

Montaggio con prese per:

profilato DIN: PAVC081 - PAVC088 (linea C)
PAVD161 - PAVD168 (linea D)

pannello: PRGC081 - PRDC081 -

PRDC083 - PRVC081 (linea C)

PRGD161 - PRVD161 (linea D)

c.s.: PRCC081 (linea C) PRCD161 (linea D)

Coil input voltage:

designed for DC or AC voltage (without rectifier diode)

Insulation:

nominal frequency voltage test and impulse voltage test (see rear table)

Contacts:

2 or 4 changeover 10 A rated contacts

Working class:

- continuous
- mechanical life: 20x10⁶ operations

Protection:

- enclosed in a transparent dustcover (degree of protection IP.40 - EN 60529) provided with extraction handle

Resistance to fire:

ref. EN 60695-2-1

Base:

quick connect faston type terminals for plug-in sockets and coupling plug

Temperature:

operative temp. -25°C +55°C (-13°F +131°F)
storage temp. -25°C +70°C (-13°F +158°F)

Signal:

optical-mechanical indication of working position or LED

Error proof pin:

on request

Label-holder:

guide for label: 8 x 15 x 0,5 mm (RCME)
8 x 30 x 0,5 mm (RDME)

Resistance to vibrations:

1 g from 10 to 50 Hz

Shock resistance:

3 g

Weight:

gr. 60 (2.17 ounces av) (line C)
gr. 115 (4.06 ounces av) (line D)

Volume:

cm³ 40 (2.44 cu in) (line C)
cm³ 80 (4.88 cu in) (line D)

Reference standard:

EN 60255

Mounting with sockets for:

DIN rail: PAVC081 - PAVC088 (line C)
PAVD161 - PAVD168 (line D)

flush-mounted: PRGC081 - PRDC081 -

PRDC083 - PRVC081 (line C)

PRGD161 - PRVD161 (line D)

P.C.B.: PRCC081 (line C) - PRCD161 (line D)

Guida alla scelta

Tipo RCMExy e RDMExy

- x = 1 Standard
 - x = 3 Con diodo smorzatore (solo cc.)
 - x = 4 Con contatti e connettori dorati (2 μ)
 - x = 5 Con LED
 - x = 6 Con diodo smorzatore e con contatti e connettori dorati (2 μ) (solo c.c.)
- y = 2 2 contatti (tipo RCME)
4 contatti (tipo RDME)
 - y = 6 2 contatti con soffio magnetico (tipo RCME)
4 contatti con soffio magnetico (tipo RDME)

Selection guide

Cat. No RCMExy and RDMExy

- x = 1 Standard
 - x = 3 With damper diode (only for DC)
 - x = 4 With gold-plated (2 μ) contacts and connectors
 - x = 5 With LED
 - x = 6 With damper diode and with gold-plated (2 μ) contacts and connectors (only for DC)
- y = 2 2 contacts (cat. No RCME)
4 contacts (cat. No RDME)
 - y = 6 2 contacts with magnet blowout (cat. no RCME)
4 contacts with magnet blowout (cat. No RDME)

Zoccolo C ad 8 innesti
8 pins base (rear view)

Zoccolo D a 16 innesti
16 pins base (rear view)

Funzionamento - Electrical data

	Alimentazione bobina <i>Coil voltage data</i>			Consumo (circa) <i>Power (about)</i>		Campo di lavoro <i>Operating range</i>		Classe di lavoro <i>Working class</i>
	max V Tens c.c./DC	max V Tens c.a./AC		W c.c./DC	VA c.a./AC	Un c.c./DC	Un c.a./AC	
		50 Hz	60 Hz					
RCMExy	220	380	440	2 ⁽³⁾	4 ⁽¹⁾ 3,2 ⁽²⁾	80÷120%	85÷110%	C
RDMExy	250	380	440	2,5	7,5 ⁽¹⁾ 5 ⁽²⁾	80÷120%	85÷110%	C

⁽¹⁾ = all'attrazione/energization - ⁽²⁾ = in funzione /continuous operation - ⁽³⁾ = 2,3W per l for 220V c.c./DC

Isolamento - Insulation data
